STICKER SHEETS

STICKER SHEETS

CREATE MULTIPLE CUSTOM STICKER SHAPES ON ONE SHEET

Features

- 6"x4", 7"x5" or 11"x8.5" sizes available
- Print on the backside liner to include additional brand information, instructions, or offers.
- Great choice for giveaways, promotions, and retail packaging inserts!
- Available in white vinyl with either permanent or removable pressure-sensitive adhesive.
- Durable construction for indoor and outdoor use.
- Die & kiss-cutting included. Proof approval required.

Please follow these guidelines when setting up your art to ensure your custom sticker sheets print and kiss-cut successfully.

Edge Bleed (Sheet): Extend your artwork at least 3/32" (.09375") past the outside finished edge of the full sheet.

Cut Margin (Edge Spacing): Keep at least 1/8" (.125") of space between the edge of your sheet and any sticker cut lines.

Space Between Kiss Cut Shapes: Maintain at least 3/16" (.1875") of space between each internal sticker edge or kiss-cut shape.

Bleed Around Each Design (if desired): Allow 3/32" (.09375") of bleed outside each kiss-cut sticker shape.

Cut Margin per Kiss Cut Shape: Leave an 1/8" (.125") inner margin from the edge of the kiss-cut to the beginning of key elements of sticker art.

Corner Styling: Round both outer and inner kiss-cut points for a clean finish that's easy to separate and prevents stickers from peeling prematurely.

Die Line: Clearly indicate cut or die line with an unused spot color.

6"x4"

7"x5"

11"x8-1/2"
